#### **Fort Vancouver NHS and Bonneville Dam Bus Tour A**

**Bus departs at 8:30 AM**

##### **3 Stamping Locations Available**

Join your fellow members for a tour that takes you through the Columbia River National Scenic Area to Bonneville Dam, Multnomah Falls, and then on to Fort Vancouver National Historic Site and the Historic Trust Buildings. Bonneville Lock & Dam, built and operated by the U.S. Army Corps of Engineers, was the first federal lock and dam on the Columbia and Snake Rivers. The project's first powerhouse, spillway, and original navigation lock were completed in 1938 to improve navigation on Columbia River and provide hydropower to the Pacific Northwest. A second powerhouse was completed in 1981, and a larger navigation lock in 1993. A ranger will take us on a guided tour of the dam and fish ladder, and then we will re-board the bus for a short trip to the historic Bonneville Fish Hatchery which was originally built in 1909 to enhance declining fish runs in the Columbia River Basin. The grounds include rearing ponds for fingerling salmon and the Sturgeon viewing area, home of Herman the Sturgeon. Herman is over 10' long and approximately 500 pounds. Bring a couple quarters for fish food to feed the trout in the two display ponds. Before heading toward Fort Vancouver, we will visit the 620 foot high Multnomah Falls and stop in the Historic Multnomah Falls Lodge, built in 1925, and gift shop. Stamps are available in the USFS information center located in the lodge. We will then continue on to Fort Vancouver National Historic Site. Originally built in 1825 by the Hudson Bay Company as a fur trading post, Fort Vancouver became the trading center for the region. In 1846, the United States of America and Great Britain settled on the international boundary making what is now the State of Washington part of the USA. The U.S. Army arrived to support American settlers and established a base that was in operation through WWII. We will explore the reconstructed fort along with Pearson Air Museum. Pearson is notable not only for being the second oldest airfield in America, but also where Valery Chkalov landed after the first transpolar flight in 1937. Bus will return to the hotel around 5:30 PM. A boxed lunch from City Sandwich is available with this tour. Boxed lunch includes choice of roast beef, ham, turkey, or veggie sandwich with chips, cookie, and bottled water. Sandwich includes cheese, lettuce, and mayo.
